

Communication with Parents Policy

SEND Supported Education Consultants offer families support and guidance via community groups and the SEND Supported monthly parent drop-in sessions. We welcome families of children who have a new autism diagnosis to our First Steps workshop, and offer autism transition support groups for parents and carers, designed to help pupils make a successful transition into secondary education.

We maintain our website, ensuring links to services, family events, practitioners and resources are relevant and up to date. We encourage parents to explore our website and welcome feedback. Parents can contact SEND Supported via the enquires link on the Contact Us page.

Following work in school, a written report will be emailed to a pupil's school, for distribution to the family. Where further information is required families should contact the school.

For more individual advice and guidance for families in Warwickshire, visit Warwickshire's SEND Information, Advice and Support Service (SENDIASS) <https://www.kids.org.uk/warwickshire-sendias-front-page>. SENDIASS is available to all families at no cost and is a good, first port of call for independent advice, information and support on matters related to SEND.
